LaCividina

Location: Martignacco, Italy

LaCividina conceives and makes collections of **designer** armchairs and sofas that epitomize the most authentic, quintessential qualities associated with the **"Made in Italy"** label.

LaCividina has been manufacturing products with **ingenuity** and **originality** for almost half a century. The invaluable properties of Italian manual culture live on in its workmanship. Outstanding organization and management ensure that its attention to **detail** is combined with the **ability** to compete on a global scale.

Every collection of sofas and armchairs stems from constant dialogue with **designers** all over the world. This has helped to make **LaCividina** a partner in significant **interior** living projects in a variety of public and private settings. Unadulterated aesthetics, **high-quality materials**, perfect workmanship and exceptional organization: LaCividina fuses comfort and appealing designs, while keeping **Italian manual culture** alive.

If we had to tell our story using a timeline, it would start in **1976**, when **Carlo Bulfoni** – who already had more than 20 years of **experience** in the world of upholstered furniture – decided to open a workshop in **Martignacco** (in the province of Udine) and call it LaCividina.

Prototype makers, model makers, tailors, joiners and upholsterers are just some of the 9 professional figures involved in the production of every item.

All of our **manufacturing** processes take place within a 50 km radius, which encompasses a production district that is **renowned** for its outstanding upholstered furniture. **LaCividina** has become the first manufacturer of padded furniture in Italy to be awarded a “Certificate of **Italian origin** for furniture”. It is a form of official recognition for the **quality** of goods that are “Made in Italy” and it shows that the production processes take place in Italy.

The certification procedure was carried out in **October 2018** by Catas and Cosmob, which are the top wood and furniture testing and certification laboratories in **Italy**.

The authentic, quintessential properties associated with the “Made in Italy” label have been at the heart of every **LaCividina project** for more than **40 years**. We are proud to play a part in championing the **Italian** manufacturing **culture**, which flawlessly fuses quality, **technical expertise** and exceptional **workmanship**.
