Keita Turner, HPMKT Style Spotter, Identifies The Top Trends of 2020

COVID-19 may have canceled the Spring 2020 High Point Market, but the event's annual Style Spotters are still putting in the work to share their favorite trends and products from exhibitors. We checked in with designer Keita Turner for her top trends of 2020:

PILLOW TALK: Cozy, Plush, Round, and Soft

LaCividina | Nap Sofa designed by Andrea Steidl

Both the name and the shape of this soft, smart seat evoke the idea of restfulness. Nap takes the idea of a pillow and recreates it in an extra-large, sartorial form, with seams that are designed to give it even more of a packed appearance, such as piping around the edges of the cushions and horizontal darts. We want our homes to feel like a pillow, filled with furniture that epitomizes the ease of today's relaxed family lifestyle.

GARDEN SCULPTURES: Sculptural Metal Furniture

LaCividina | Filinea Chair by Antonino Sciortino

The futuristic Filinea armchair fuses natural and technological qualities. It takes its cue from euphorbia tirucalli trees and is made of round, extremely slender steel bars. The plants are very common in the South of Italy and their intricately arrayed branches inspired a seemingly impossible design: intersecting geometric lines that create an armchair with an airy outline. The extremely light seat is suitable for both indoor and outdoor use.
